

## Personalized payroll services at an affordable price

NextPoint Payroll is dedicated to providing highly personalized, premium-level payroll services at an affordable price. With NextPoint Payroll, your company will have:

- A dedicated account representative with expertise in payroll and accounting practices
- Customized payroll processes tailored to your company's specific needs
- State-of-the-art data systems and processes

From initial payroll setup or system conversion through every payroll cycle that follows, your NextPoint Payroll team member is on the front lines working for you. Behind the scenes, we offer one of the industry's best data processing systems, which has been developed and honed by our strategic partner, Southland Data Processing (SDP). An industry leader for more than 20 years, SDP:

- Processes more than \$1.2 billion in transactions each year
- Handles tax filings in all 50 states
- Is SAS Type II certified and fully bonded

## Let payroll be the least of your worries.

Over and over again, we've seen companies spend too much time and money on large, national payroll services that provided neither the accuracy nor the personal attention that reflects good business. That's why we created **NextPoint Payroll**.

If your company has from 2 to 2,000 employees, we can help you:

- Reduce payroll costs
- Increase efficiencies
- Ensure payroll accuracy and compliance

## From tax compliance to employee benefits, we've got you covered.

With NextPoint Payroll, you get the convenience of one-stop shopping without the hassle of one-size-fits-all. We'll work with you to select and customize a portfolio of products and services that suit your company's unique needs. Our offerings include:

- Tax filing and compliance services
- Time clock and Web-enabled attendance solutions
- Data systems that centralize all employee human resource and payroll information
- Employee screening services that utilize up-to-the-minute data systems and our nationwide network
- Group benefit plans that offer excellent customer service and administrative resources at very competitive pricing
- Workers' compensation coverage

PAYROLL

**Your company's  
financial well-being  
is our business.**

Whether you're a new company setting up shop or an established business looking to save money and improve payroll and accounting processes – we can help.

NextPoint was founded by top Southern California management professionals who share a passion for helping local businesses develop and maintain highly effective financial operations.

NextPoint Payroll is a division of NextPoint Consulting, a full-service accounting consulting firm that specializes in helping businesses with all aspects of their financial operations. Our team of professionals includes experienced controllers and CFOs who work closely with our clients at all levels – from providing strategic CFO consultation to helping set up new accounting functions or retooling existing systems and processes.
